

1 throw them in a mailbox to us and after the meeting,
2 the staff will be here to talk with anybody who wants
3 to stay on.

4 We also have some of our expert
5 consultants with us who are managing the project from
6 the environmental point of view and they'll be here
7 also. And with that, I guess if we could get some
8 lights back on and we'll see if anybody has any
9 questions about the information that was presented.
0 Anybody have any questions on this? I know that it's
1 a lot of material and for those of you who aren't
2 familiar with license renewal at all, you may be a
3 little bit in the dark but Barry did a great job of
4 providing an overview. But any questions on the
5 presentations or license renewal that we can answer?
6 Okay, yeah.

7 MR. SHIRANI: My name is Oscar Shirani. I
8 am working for myself for Quality Assurance
9 Consultants and for the last almost two years I have
0 been a whistle-blower against Exelon Nuclear and I
1 have been out of job and my name has been banned from
2 the industry from the nuclear. I cannot find any job.
3 I even have job offer that I was supposed to start on
4 June 30th at Beaver Valley working for First Energy.
5 As soon as they heard my name, they rescind their
6 offer. And this is not the first one. Many times it
7 has happened.
